Overview

Shee Atiká Systems, LLC (SYS) specializes in solving complex challenges for clients and partners, positioning itself as a small business leader in systems integration for the federal government. SYS drives innovation in defense systems integration, focusing on optimization to enhance efficiency and effectiveness across various domains. From streamlining operational workflows to maximizing resource utilization, SYS delivers impactful solutions.

Our expertise encompasses evaluating and managing initiatives designed to elevate human performance, improve organizational effectiveness, and achieve strategic goals. This includes leveraging advanced technologies and seamlessly integrating diverse systems to simplify processes and deliver superior outcomes.

Integrating a subsystem into an existing platform or program comes with inherent challenges, such as ensuring compatibility, compliance, data security, and optimal performance. To address these complexities, we customize our approach for each customer, prioritizing collaborative strategic planning, transparent communication, technical expertise, and meticulous project management. This commitment ensures the successful achievement of mission objectives.

CONTRACT VEHICLES

As an SBA 8(a)-certified subsidiary of an Alaska Native Corporation, SYS is uniquely positioned to receive direct awards. This streamlined contracting mechanism simplifies the procurement process for clients, project partners, and end users, delivering cost-effective solutions that align with mission requirements and accelerate innovation.

8(a) Alaska Native Corporation (ANC) Contracting Benefits

- Sole-source awards of up to \$100 million for DoD contracts and \$25 million for non-DoD contracts can be issued without requiring justification and approval.
- Contracts can be awarded without competitive bidding under sole-source authority.
- IDIQ contracts may also be established when an initial task order with funded sponsorship is included, with no requirement to obligate the full IDIQ funding.
- Engages directly with the government through negotiated contracts.
- Immune to protests, ensuring a seamless procurement process.
- Enables the government to earn Small Disadvantaged Business and Native participation credits.
- Performs at least 51% of all direct labor requirements.
